

## **VISITOR INFORMATION FOR GETTYSBURG TOUR WITH LICENSED BATTLEFIELD GUIDE**

**WARNING:** There is a risk that you will get COVID-19 or another illness during your tour. COVID-19 can cause death in some people, including but not limited to those over 60 or those with underlying health conditions. Following the below rules will help to reduce, but cannot eliminate, this risk.

- If you or anyone in your group has, or has in the last forty-eight (48) hours had, cough, shortness of breath or trouble breathing, fever, chills, muscle pain, headache, sore throat, new loss of taste or smell, or is otherwise feeling at all ill, your group **MUST NOT** take the tour. If anyone in your group shows any sign of illness, your Guide has the discretion to refuse the tour.
- You **MUST** provide your Guide with the name, telephone number and state of residence for at least one person in your group. This information will be used only in case someone becomes ill within a few days after the tour and health authorities require contact tracing.
- Your Guide will wear a mask and everyone in your group is strongly encouraged to wear a mask covering the mouth and nose whenever you are outside your vehicle. You will need to provide your own masks, as there is not a sufficient supply available.
- Whenever you are outside your vehicle, you **MUST** maintain a minimum distance of 6 feet (about 1.8 meters) from others, including your guide. Some stops may be a bit crowded, but it is important to maintain the required distance from those not sharing your car, and from your guide, at all times.
- **DO NOT** touch items on the field such as cannons, monuments, fences, railings or any other surfaces that may have been touched by other visitors. Objects on the battlefield are not being disinfected.
- **WASH** your hands for at least 20 seconds with soap and water as soon as you can. Even if you use hand sanitizers while on the tour, you should still wash with soap and water whenever possible, as this is the preferred means of removing the virus.
- If you become sick within forty-eight (48) hours after the tour with any of the symptoms mentioned in the first bullet above, you **MUST** contact your Guide and report this fact immediately. Your Guide will provide contact information.
